

## ABOUT CENTRAL SAN

We are a special district responsible for the collection and treatment of wastewater in a 182-square-mile service area in Contra Costa County, for approximately 488,900 residents and more than 3,000 businesses.

Our 274 employees operate and maintain more than 1,540 miles of pipe and clean and disinfect an average of 44 million gallons a day. We are governed by a five-member Board of Directors.

## SOUND GOOD?

We are now accepting applications for our Spring 2019 session!

Please visit our website at

[www.centrialsan.org/  
central-san-academy](http://www.centrialsan.org/central-san-academy)

or email us at [academy@centrialsan.org](mailto:academy@centrialsan.org) to apply.

We hope to see you there!

# CENTRAL SAN ACADEMY

*join us this spring!*

[www.centrialsan.org/  
central-san-academy](http://www.centrialsan.org/central-san-academy)

## WHEN?

Central San Academy is held from 6:00-8:30 p.m. once a week for six consecutive weeks, typically in March/April/May. One of the six classes, our facilities tour, is held from 9:00 a.m. - 12:30 p.m. so participants can see us in action. A light meal is served at every class.

## WHERE?

For the first time, Central San Academy will be held at our Collection System Facility at 1250 Springbrook Road in Walnut Creek, except for one class (our facilities tour), which will be held at our headquarters and treatment plant at 5019 Imhoff Place, Martinez.

## WHY?

We hold the Academy each year to open our doors to the public and create a space for us and our participants to share information with each other.

We value our customers and want to hear what is important and engaging to you. Our goal in holding the Academy is for you to have a better understanding of your government and the core services we provide.

We look forward every year to sharing what we do to serve this wonderful community, and we hope you will join us this upcoming spring!

## EVER WONDER WHAT HAPPENS TO WATER AFTER IT GOES DOWN THE DRAIN?

Our citizens academy provides the answer through an award-winning, behind-the-scenes look at us, your friendly neighborhood sewer service provider!

This program is FREE of charge to participants and offers a rare glimpse into how used water gains new life as recycled water through resource recovery.

## BUT IT'S MORE THAN JUST WASTEWATER!

Participants in Central San Academy learn about everything else we do, from pollution prevention, to capital projects construction, to piloting new technologies, and more. We do all this in an interactive and eye-opening setting that includes classroom learning, group activities, live demos, and a tour of our facilities.
