

# Thank You For Our Presentation

Thank you for coming to our class today! We had so much fun. We can't believe that toilet paper disintegrates so much or that our pipes connect with others! -Ms. Fernsten's 3rd Grade

RACHEL FERNSTEN OCT 08, 2020 01:51PM

**Thank you Mrs. Nicolini! your activity you taght us was so fun! I hope we see you again!**

~ Aubrey

**Thank you Ms. Nicolini**

If you had not came I would not have learned that the toilet water goes to centrel sand

Aarav

**Pikachu happy**

YOUTUBE

**Thank you !!!**

\_ Sanjana

**Thank you Ms.Nicolini for the activity.**

Yusra

**Thank you for the presentation I had so much fun and I learned soooo much!**

-Ava

**Thank you Ms. Nicolini I had so much fun and it was very interesting! You taught me stuff I never knew before like what happens to toilet paper after it is flushed down.**

- Arnav

**I had so much fun doing this project and i really learned a lot today**

-Sophie

**Hi Ms. Nicolini thanks for teaching us the experiment**

Nehan

**Thank you Ms.Nicolini**

Hi Ms. Nicolini, my name is Vanshika I was not there for your presentation sadly but after I got to do the activity and I really did enjoy! ~ Vanshika ~

**thank you ms nicolini for coming to or class and teaching us about the pipes i loved the experimnet you did with us thank you for coming to our class.**

shriya

**Thank You**

pramod

**Thank you Ms. Nicolini I learned so much about where our water goes and have it goes there**

~ Shreyan

**THANK YOU Ms nicolini**

Isabella

**Thank you ms. Nicolini for teaching me that all the pipes connected to all our houses is about 4 to 6 inches.**

-Alyssa

**thank you for the activity.I really enjoyed it.It was super super fun.**

-kewei

**Thank You For Our Presentation Ms. Nicolini**

Mikey

**thank you ms. nicolini for the expirement . christian**

Thanks for coming I loved the experiment!

- Max

**I Really Loved This Fun Activity It Was The Zest!**

-Ayaan

**Thank you so much Ms. Nicolini! I really enjoyed the experiment. I hope I can see you later on. You are very nice and kind. I have a question what happens if I put both toilet paper and non toilet paper in the same jar? Once again Thank you so much. The one that is big is the non toilet paper one and the one that is small is the one with toilet paper.**

-Pragati

**Thank You Ms.Nicolini!! 😊😊**

I loved the activity. It was so fun.I I learned so much about what to flush down the drain and what is in the pipes after you flush. 🚽🗑️

- Akanksha

**Thanks you Ms. Nicolini I really enjoyed learning where the water goes and how in goes there**
