

Permits

Types and Processing

Classes of Permits

- ◆ Class I: contract
- ◆ Class II: Significant Industrial Users (SIU)
- ◆ Class III: non-SIUs
 - Zero Discharge
 - Discharging
 - Dental
 - Mobile Washer
 - Best Management Practices (BMP)

Classes of Permits

- ◆ Special Discharge Permits (SDP)
 - One-time only
 - Groundwater
 - Construction dewatering
 - Pool/Spa/Fountain
- ◆ Waste Haulers

Permit Initiation

How do we find industries needing a permit?

- Industrial user survey inspection
- Compliance inspection findings
- Requested by industrial user
 - [Click here for more information about inspections](#)
- Other resources (e.g. internet, competitors, phone book, etc..)

Permit Initiation

What documents initiate the permitting process?

- Industrial User Application:
 - [Baseline Monitoring Report \(BMR\)](#)
- Other Permit Applications
 - [SDP Application](#)
 - [BMP Application](#)
 - [Mobile Washer Permit Application](#)
 - [Dental Practice Application](#)
 - [Pool/Spa/Fountain Discharge Application](#)
 - [Waste Hauler Permit Application](#)

Click each link to be directed to the application forms

Permit Processing

Type of permit depends on:

- Type of discharge (i.e. groundwater vs. process wastewater)
- Continuous or temporary discharge
- Type of industry (e.g. categorical, variable discharge quality)
- Zero discharge

Permit Processing

- ◆ District creates draft permit for facility
- ◆ Complete permit mailed to Industrial User with two sets of cover pages
- ◆ Cover pages include a signature page and a data page
 - Industrial User **returns** one signed signature page and one data page with applicable changes
 - Industrial User **keeps** one signed signature page and one data page with applicable changes

Permit Renewal

- ◆ Most existing permits are automatically renewed by inspector
- ◆ Permit renewal is a good time to make changes to permit:
 - Permit contact
 - Sampling and monitoring parameters
 - Sampling frequency
 - Operating log requirements
 - Developing Best Management Practices (BMP)

Permit Turn-Around Time

- ◆ Class I/II/III:
 - Renewal: Facility shall receive renewal 2-4 weeks before permit renewal date
 - New Permit: 4 weeks from receipt of BMR
- ◆ Special Discharge Permit
 - Renewal: Facility shall receive renewal 2-4 weeks before permit renewal date
 - New Permit: up to 2 weeks if flow < 50 gpm
up to 4 weeks if flow \geq 50 gpm

Current Permitted IUs

(as of September 1, 2018)

Class II	Class III	Class III BMP	Class III dental	Class III mobile washer	SDP	Waste Hauler

Types of Industries Currently Under Permit

- ◆ Hospitals
- ◆ Metal Finishers
- ◆ Groundwater remediation
- ◆ Colleges
- ◆ Manufacturing
- ◆ Garbage Companies
- ◆ Radiator Shops
- ◆ Mobile Washers
- ◆ Fleet Maintenance
- ◆ Dentists
- ◆ Newspapers
- ◆ Laboratories
- ◆ Pool Discharges
- ◆ Construction Dewatering
